(Callaway Plant, Unit 1))

MOTION FOR ORDER SETTING
ASIDE PERMIT, OR STAYING PERMIT

Come now Joint Intervenors, Coalition for the Environment, St. Louis Region; Missourians For Safe Energy; and Crawdad Alliance, and move that this Commission enter its order setting aside a low-power testing permit allegedly granted by the Director of Nuclear Reactor Regulation on or about June 11, 1984, or in the alternative staying that permit. As grounds for this motion Joint Intervenors state:

1. On April 18, 1984 these Joint Intervenors submitted their motion for leave to file supplemental contention. As far as these Joint Intervenors know, that motion has never been granted or denied.

2. The press reports that on or about June 11, 1984 the Director of Nuclear Reactor Regulation issued a low-power testing permit to Union Electric Company.

3. The issuance of the permit, in the face of an unresolved motion presenting substantial questions respecting financial qualifications, is clearly improper. Substantial issues are to be resolved before the permit is issued, not afterwards.

WHEREFORE, Joint Intervenors request that this Commission set aside the permit allegedly granted on or about June 11, 1984, or in the alternative stay that permit and prohibit the taking of any action pursuant thereto.
