

JUN 14 1984

Docket No.: 50-445

MEMORANDUM FOR: B. J. Youngblood, Chief
 Licensing Branch No. 1
 Division of Licensing

FROM: S. B. Burwell, Project Manager
 Licensing Branch No. 1
 Division of Licensing

SUBJECT: CPSES PRESERVICE INSPECTION PROGRAM AND PUMP
 AND VALVE TESTING PROGRAM

The Texas Utilities Generating Company (TUGCO) in a letter dated October 7, 1982 submitted 3 copies of the CPSES Preservice Inspection Program and the CPSES Pump and Valve Inservice Testing Program (including pump and valve drawings.) An original copy of the letter and the reports and drawings are being given to Document Control.

A copy of the CPSES Preservice Inspection Program was given to the Materials Engineering Branch (MTEB) Division of Engineering in October 1982. This document was subsequently reviewed by MTEB and their conclusions are reported in Sections 5.2 and 6.6 of Supplement No. 4 to the Safety Evaluation Report (SER) NUREG-0797, issued November 1983.

A copy of the Pump and Valve Testing Program including a set of drawings was given to the Mechanical Engineering Branch (MEB) in October 1982. As suggested in the letter, TUGCO submitted a revised Pump and Valve Inservice Testing Program and drawings in a letter dated October 27, 1983 (Accession #8311170295). This later letter supercedes the earlier pump and valve documents. The later letter and its enclosures are currently under review by MEB. Their conclusions will be published in a future supplement to the SER.
