Dear Judge Smith -

Re: The Pre-hearing Conference of the Atomic Safety and Licensing Board to be held May 30, 1984 at the Federal Building in Rockford.

We are among the many deeply concerned with the Commonwealth Edison engaged in constructing more nuclear energy plants, and not placing these under the proper and required investigation.

Because of ill health at this time I will not be able to attend myself, but it is so assuring that a good many others will be able to be there for this hearing.

After having lived in Chicago for about 30 years I was advised by my doctor to get out of the city to a place with better air, and I returned to our old home here in Orangeville. But as you well realize, people in many parts of this great country are facing the problem of the proper disposal of nuclear wastes.

We have confidence in your presiding at this Pre-hearing Conference, as have many others in this area.

Believe me,

Faithfully yours,
John A. Leiser
