South Carolina Electric & Gas Company (SCE&G) acting for itself and as agent for South Carolina Public Service Authority, is submitting a revision to the February 21, 1995 Technical Specification Change Request (TSCR). The purpose of this revision is to address an NRC staff request for information.

This revision impacts the Safety Evaluation and the No Significant Hazards Evaluation.

The amendment request is contained in the following attachments:

- Attachment I - Revised List of affected pages and marked-up Technical Specifications
- Attachment II - Revised Description of Amendment Request and the supporting Safety Evaluation
- Attachment III - Revised Description of Amendment Request and the associated No Significant Hazards Evaluation

This proposed TS change has been reviewed and approved by both the Plant Safety Review Committee and the Nuclear Safety Review Committee.
