RE: NEW JERSEY POLLUTANT DISCHARGE
ELIMINATION SYSTEM
DISCHARGE MONITORING REPORT
HOPE CREEK GENERATING STATION
NJPDES PERMIT NJ0025411

Dear Sir:

Attached are corrected pages for Discharge Monitoring Reports (DMR's) for the Hope Creek Generating Station submitted during 1991. The corrections noted in this report are not due to exceedances or omissions but rather due to the manner of which results are reported. These changes reflect the updated guidance provided by NJDEPE in the DMR Instruction Manual (Revised June 1991) and are being submitted in accordance with NJAC 7:14A-2.5(a)14viii. The corrections were discovered during a routine review of previously submitted DMR's and have not resulted in any new permit exceedances nor substantive changes to previously reported information. The corrections have been highlighted to facilitate updating your records.

If you have any questions concerning this report, please feel free to contact Mr. C. E. White.

Sincerely,

Joseph Hagan
