Subject: Docket No. 50-361
Licensee Event Report No. 84-009, Revision 1
San Onofre Nuclear Generating Station, Units 2 and 3

Reference: Letter, J. G. Haynes (SCE) to USNRC Document Control Desk,
dated March 15, 1984, Licensee Event Report No. 84-009

The referenced letter provided the required 30-day informational Licensee Event Report (LER) on the decalibration of Static Thermal Power for Units 2 and 3. We also reported that a revised LER would be issued by June 15, 1984, to provide the results of the Unit 3 evaluation and final recommendation from Combustion Engineering. The Unit 3 evaluation and final recommendation is not yet available. As a result, we are rescheduling submittal of LER-84-009, Revision 1, and plan to provide it by August 17, 1984.

If you require any additional information, please so advise.

Sincerely,

cc: A. E. Chaffee (USNRC Resident Inspector, Units 1, 2 and 3)
J. P. Stewart (USNRC Resident Inspector, Units 2 and 3)

J. B. Martin (Regional Administrator, USNRC Region V)
