Dear Mr. Schuyler:

Subject: Water Hammer Test Procedures for Unit 2

We have reviewed the PG&E procedures for performing the Steam Generator Water Hammer Test for Diablo Canyon Unit 2 as described in your letter of August 26, 1983. These procedures were submitted in response to a requirement as stated in Section 10.4 of SER Supplement No. 8. Based on our review, we conclude that the procedures are acceptable.

Sincerely,

15/
