Dear Mr. Tuckman:

SUBJECT: WITHDRAWAL OF AMENDMENT REQUEST - CATAWBA NUCLEAR STATION, UNITS 1  
AND 2 (TAC NOS. M76474 AND M76475)

By letter dated March 29, 1990, as supplemented April 26, 1990, you applied for amendments to the Catawba Nuclear Station, Units 1 and 2 Technical Specifications (TS). The changes would have relocated Table 3.6-1, "Secondary Containment Bypass Leakage Paths;" TS Table 3.6-2a, "Unit 1 Containment Isolation Valves;" and TS Table 3.6-2b, "Unit 2 Containment Isolation Valves," to Chapter 16 of Catawba's Final Safety Analysis Report (FSAR), Selected Licensee Commitments (SLC) Manual. Proposed changes to TS 1.7, 4.6.1.1, 3.6.1.2, 3.6.3, 4.6.3.1, 4.6.3.2, 4.6.3.3, and TS Bases 3/4.6.4 were also associated with relocation of the above Tables to the FSAR.

Generic Letter (GL) 91-08, "Removal of Component Lists from Technical Specifications," was issued on May 6, 1991, to provide guidance for the removal of such component lists from the TS. My letter to you of May 10, 1991, indicated that your application for this amendment would be reviewed against the guidance provided in the generic letter. Subsequently, by letter dated January 16, 1991, you indicated that additional time was needed to review the impact of GL 91-08 on the amendment request and withdrew the request to be resubmitted at a later date.

The Commission has filed the enclosed Notice of Withdrawal of Application for Amendments to Facility Operating Licenses with the Office of the Federal Register for publication. This completes our activities on this application pursuant to TAC Nos. M76474 and M76475.

Sincerely,

NRC FILE CENTER COPY
