Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attn: Document Control Desk ✓

Subject: Additional Information regarding Commonwealth Edison Company's
Response to Questions Regarding the Increase in the
Interim Plugging Criteria for
Byron Unit 1 and Braidwood Unit 1
NRC Docket Numbers:50-454 and 50-456

- References:
1. D. Lynch letter to Commonwealth Edison Company dated August 23, 1995, transmitting Request for Additional Information
 2. D. Saccomando letter to NRC dated September 1, 1995, transmitting Response to Request for Additional Information

In reference letter 1, the Nuclear Regulatory Commission transmitted to the Commonwealth Edison Company (ComEd) a request for additional information (RAI) questions 55 to 57, regarding the technical bases supporting the pending license amendments, which involves an increase in the interim plugging criteria for steam generator tubes at Byron Unit 1 and Braidwood Unit 1. Reference 2 transmitted ComEd's response to questions 55. As stated in Reference 1, the response to questions 56 and 57 would be subsequently forwarded to the Staff. Attached is ComEd's response to those questions.

If you have any questions concerning this correspondence please contact this office.

Sincerely,

Denise M. Saccomando
Nuclear Licensing Administrator
