MEMORANDUM FOR: K. V. Seyfrit, Chief, ROAB, AEOD

FROM: M. Chiramal, Plant Systems Unit, ROAB

SUBJECT: TR NO. AEOD/T408
DIESEL GENERATOR INOPERABILITY DUE TO OVERHEATING
OF VENTILATION COWLING

Forwarded herewith is the subject technical review report for your consideration. My review has concluded that this problem has no generic implications and that the corrective actions taken or planned to be taken at Fitzpatrick are adequate.
