Dear Mr. Smith:

Subject: Combined Inspection Report Nos. 50-352/91-24 and 50-353/91-25

This letter transmits the results of the resident safety inspection by Messrs. T. Kenny and L. Scholl, from November 17, 1991, to January 4, 1992, at the Limerick Generating Station, Limerick, Pennsylvania. This inspection focused on the observation of activities important to public health and safety. Reviews of documents and interviews of plant personnel were also performed. The results have been discussed with Mr. Graham Leitch and Mr. J. Doering of your staff.

We noted both units were operated in a safe and conservative manner during this report period. No violations were identified.

We appreciate your cooperation.

Sincerely,
