Baltimore Gas and Electric Company  
Calvert Cliffs Nuclear Power Plant  
MD Pts. 2 & 4  
P. O. Box 1535  
Lusby, Maryland 20657

Dear Mr. Creel:

SUBJECT: UPDATED RESPONSE TO NRC GENERIC LETTER (GL) 89-13, "SERVICE WATER SYSTEM PROBLEMS AFFECTING SAFETY-RELATED EQUIPMENT," CALVERT CLIFFS NUCLEAR POWER PLANT - UNITS 1 & 2

By letter dated January 6, 1992, Baltimore Gas and Electric Company provided an update to its initial response to the subject GL. You have indicated that changes have been made to two of the programs associated with service water systems at the Calvert Cliffs facility. You have also indicated that these changes are consistent with the actions needed to assure acceptable performance of the service water systems; therefore, the requirements of the GL are being met.

The staff has not performed a detailed evaluation of the programs outlined in your responses to the GL; however, documentation supporting your effort and programs should be maintained in appropriate plant records as indicated in the staff's April 27, 1990, letter.

Sincerely,

ORIGINAL SIGNED BY  
Daniel G. McDonald, Senior Project Manger
