

SECOND SUPPLEMENTAL STATEMENT OF DONALD P. HALL

On July 28, 1992, I was interviewed by Ms. Virginia Van Cleave of the NRC Office of Investigations. On September 16, 1992, I reviewed a copy of the transcript of that interview. During the interview, I was asked about my whereabouts on the day of February 21, 1992. At the time I was interviewed, I could not specifically recall. Since that time, however, I have checked my records and have determined that I was at the South Texas Project site during the day of February 21, 1992.
