Gentlemen:

This acknowledges the receipt of your letter dated December 20, 1991, by which you transmitted Revision 11 to the River Bend Station Training and Qualification Plan for your facility.

The regional staff reviewed Revision 11 and determined that the revision is consistent with the requirements of 10 CFR 50.54(p). Many of the changes were administrative in nature. The change to the plan in reference to the revision of weapons qualification criteria did not reduce the effectiveness of the plan. The change should enhance the training of security officers. Your implementation of that change will be reviewed during future inspection efforts.

Sincerely,

Original signed by
