

ENCLOSURE 1

NOTICE OF VIOLATION

Omaha Public Power District  
Fort Calhoun Station

Docket: 50-285  
License: DPR-40

During an NRC inspection conducted on July 2 through August 12, 1995, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions" (60 FR 34381; June 30, 1995), the violation is listed below:

Technical Specification (TS) 5.8.1 states, in part, that written procedures and administrative policies shall be established, implemented, and maintained that meet or exceed the minimum requirements of Regulatory Guide 1.33.

Regulatory Guide 1.33, Appendix A, Section 9.a, states, in part, that maintenance that can affect the performance of safety-related equipment shall be performed in accordance with written procedures or documented instructions appropriate to the circumstances.

Construction Work Order 95-175, Step 2.7, states, in part, that all open piping systems are to be covered during periods of inactivity to preclude the introduction of foreign materials into the system.

Standing Order SO-M-103, "System Cleanliness," Revision 2, Section 7.2.2, states, in part, that system openings shall be covered when work is not actively in progress in the vicinity of the opening.

Contrary to the above, the inspectors observed that maintenance personnel did not cover the open piping of a control room air conditioner during a period of inactivity.

This is a Severity Level IV violation (285/9512-01) (Supplement I).

Pursuant to the provisions of 10 CFR 2.201, Omaha Public Power District is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region IV, 611 Ryan Plaza Drive, Suite 400, Arlington, Texas 76011, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why

such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Dated at Arlington, Texas,  
this 11th day of September 1995
