

JUN 13 1984

Docket No. 50-112

Dr. Craig Jensen, Director
of Nuclear Reactor
School of Aerospace, Mechanical
and Nuclear Engineering
University of Oklahoma
865 Asp Avenue, Room 212
Norman, Oklahoma 73019

Dear Dr. Jensen:

The staff of the U. S. Nuclear Regulatory Commission (NRC) has completed its review and evaluation of the emergency plan for the University of Oklahoma AGN-211 P reactor that you submitted on September 8, 1983, in compliance with 10 CFR 50.54(q) and (r). The plan was reviewed against the requirements of Appendix E to 10 CFR Part 50, the guidance criteria set forth in Revision 1 to Regulatory Guide 2.6 and ANSI/ANS-15.16-1982, "Emergency Planning for Research Reactors."

Based on its review, and as discussed in the enclosed safety evaluation, the staff concludes that the emergency plan for the University of Oklahoma reactor facility meets both the requirements of the regulations and the guidelines provided to you and is, therefore, acceptable. We request that you begin to implement your approved emergency plan immediately, with full implementation to be accomplished within 120 days of the date of this letter. Furthermore, you are requested to inform us by letter of the date on which complete implementation is achieved.

If you have any questions, please contact Harold Bernard, our Project Manager for your facility, at (301) 492-0799.

Sincerely,

/s/

Cecil O. Thomas, Chief
Standardization & Special
Projects Branch
Division of Licensing
