Gentlemen:

We have received your letter dated January 15, 1992, which transmitted Revision 14 to the ANO Nuclear One Emergency Response Plan.

We have reviewed Revision 14 and have determined that it is acceptable and does not degrade the effectiveness of your emergency planning for ANO Nuclear One.

Revision 14 includes an improvement to your emergency preparedness program by providing a computer based automatic phone dialing for alerting key emergency responders, a shift of responsibility from the Director of the Emergency Operations Facility to the Director of the Technical Support Facility for evacuating nonessential personnel, more stringent contamination limits, new position-oriented training manuals, and emergency public information brochures.

If you have any questions, please contact Mr. Nemen M. Terc at (817) 860 8129.

Sincerely,

Original signed by

A. Bill Beach, Director
Division of Reactor Projects
