In the Matter of  
LONG ISLAND LIGHTING COMPANY  
(Shoreham Nuclear Power Station, Unit 1)  
Docket No. 50-322-1 (OL)

Dear Mr. Dynner:

This letter is to confirm our telephone conversation of June 15, 1984 regarding TDI documents obtained by you during the discovery process, and your letter of the same date memorializing same.

Based in part upon your invitation that we review and evaluate this customer service information, the Staff was ready to review this material in your office at a time convenient to you.

We were quite surprised at your change of position whereby you are now refusing to allow us to examine this material. We have no intention of pursuing its availability through LILCO or TDI without having the slightest indication of its possible value to us in the pending litigation. As you know, my request at an earlier date for specific content which might be of interest was never answered. The Staff and its consultants presently are able to proceed with their reviews of TDI engines on the basis of information we have presently in our possession, or which we will be receiving in due course from the TDI Owners' Group. Nevertheless, if you still feel that the Staff should concern itself with the documents which you have obtained, please inform me of your concerns, indicating a suitable time for Staff personnel to examine same.

Sincerely,

Richard J. Goddard  
Counsel for NRC Staff
