Docket No. 50-263

Northern States Power Company
ATTN: Mr. L. R. Eliason
Vice President, Nuclear
Generation
514 G. Collet Mall
Minneapolis, MN 55401

Dear Mr. Eliason:

This confirms our plans as discussed between Mr. William Hill of your staff and Mr. Steve Ray of this office to have a meeting with you and members of your staff at the Monticello Station Training Center on February 20, 1992, at 2 p.m. (CST). The purpose of the meeting is to present the Initial SALP 10 Report for the Monticello Nuclear Generating Station.

We encourage you to have appropriate corporate and plant management representation at the meeting to ensure a mutual understanding of the issues and findings being presented by the NRC.

While this meeting is considered a presentation and discussion forum between Northern States Power and the NRC, the meeting will be opened to any other interested parties as observers. Those persons outside the licensee and NRC staffs should inform the Regional Office of their intent to participate.

We hope this meeting will benefit your organization and provide you with a meaningful characterization of the overall safety performance for the Monticello Nuclear plant.

Sincerely,

*Original signed by
