CONSIDERATIONS FOR CAROWINDS THEME PARK
WITH REFERENCE TO CATAWBA NUCLEAR STATION

1. Who will notify Carowinds of situation at Catawba Nuclear Station?
2. Who will make recommendation that Carowinds be closed or evacuated?
3. At what stage or level of emergency will 2. above take place?
4. Will we (local government) open shelters for a precautionary evacuation?
5. How will EBS be handled for a precautionary situation or evacuation?
6. Will volunteers respond to a precautionary condition versus a declared emergency?
7. Is Carowinds the only special facility that is to be considered for precautionary action?
8. Will an early precautionary evacuation do more harm than good from the standpoint of local and state creditability?
9. How will the media view an evacuation of Carowinds when no other action is planned for special facilities?
