Int. EP-31

DOCKET NUMBER 50-413/414 OL  
PROD. & UTIL. FAC.

DOCKETED  
USNRC

August 18, 1983 '84 MAY 24 AM 11:44

OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

Mr. Jesse T. Pugh, Director  
Division of Emergency Management  
Department of Crime Control and  
Public Safety  
116 West Jones Street  
Raleigh, NC 27603

Dear Mr. Pugh:

Enclosed for your review are the Regional Assistance Committee's (RAC's) informal evaluation comments on the Off-Site Radiological Emergency Response Plans for the Catawba Nuclear Station. These comments are submitted to your office for appropriate action.

The evaluation comments are the result of RAC meetings held on July 26-27, 1983, and represent concurring opinions of all representatives of agencies present (i.e., FDA, EPA, NRC, DOT, and FEMA).

Should you have questions or need clarification on any of the items, please contact John Heard at (404) 881-3442.

Sincerely,

GW

Glenn C. Woodard, Jr., Chief  
Natural and Technological  
Hazards Division

## NUREG ITEM

## COMMENT

(Note: Correlate with cited "Applicability and Cross-Reference to Plans")

- A.1.a. Part 1. For private sector, identify organizations in Sec. III. A.4. (hospitals, radio and TV stations, volunteer fire and rescue organizations).
- A.2.a. Part 2. Functions and responsibilities for traffic control and E.M.S. missing for Gaston County Plan.
- A.3. Parts 2, 3. Copies of the appropriate Letters of Agreement should be included.  
Part 2. Need additional Letters of Agreement for various organizations, especially Gaston Memorial Hospital and E.M.S.
- C.1.c. Acceptable pending receipt of further information regarding resources required by Federal response.
- C.4. See A.3. comment above.
- E.6. Adequate-however, final acceptance of the A & N systems is pending final FEMA guidance.
- E.7. Was ad hoc respiratory protection considered in drafting messages?
- G.1. No details of distribution provided.
- G.2. Details on public information program needed.
- H.11. General categories of equipment (other than radiological) not listed in Parts 2 and 3.
- J.10.a. Maps not in plan.
- J.10.b. Maps not in plan.
- J.10.h. Location of shelters not given.
- J.10.k. More details needed, especially concerning contingencies.
- J.12. Means for registering and monitoring evacuees not provided.

NUREG ITEM (con't)

COMMENT (con't)

- K.3.a. Parts 2 and 3 should include reference to Part 1, page 71.
- K.3.b. Parts 2 and 3 should include reference to Part 1, page 71.
- N.2.a. No provisions discussed for quarterly communications drills between State and Federal response organizations. We recognize that the system is installed and used daily; however, a brief description should be in plan.
- N.3.f. Parts 1-3: Plans do not clearly state that materials will be provided to official observers in advance of exercise.
- N.4. Part 1: Plan states that a critique will be held within two weeks following the exercise. This does not appear to be consistent with NUREG which says "as soon as practicable."
- P.5. No provision for marking and dating revised plan pages.
- P.7. Although some procedures are provided as annexes, a complete listing of all procedures, by title, is not included.
- P.8. Specific NUREG elements should be listed in cross-reference.
