

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

February 12, 1992

Docket Nos. 50-348
and 50-364

Mr. Ronald P. DiPiazza, Manager
Operating Plant Licensing Support
Westinghouse Electric Corporation
Post Office Box 355
Pittsburgh, Pennsylvania 15230-0355

Dear Mr. DiPiazza:

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE,
JOSEPH M. FARLEY NUCLEAR PLANT, UNITS 1 AND 2

By your applications dated November 11, 1991, and October 25, 1991 and affidavits dated November 11, 1991 (CAW-91-230), and October 28, 1991 (CAW-91-225), respectively, you submitted the following:

WCAP-13103, "Additional Information Supporting SG Tube Support Plate Plugging Criteria for J. M. Farley Units 1 and 2," dated October 1991.

WCAP-17871 Revision 1, "J.M. Farley Units 1 and 2 SG Tube Plugging Criteria for ODSCC at Tube Support Plates," dated October 1991.

You stated that the submitted information should be considered exempt from mandatory public disclosure for the following reason:

- A. The information reveals the distinguishing aspects of a process (or component, structure, tool, method, etc.) where prevention of its use by any of Westinghouse's competitors without license from Westinghouse constitutes a competitive economic advantage over other companies.
- B. It consists of supporting data, including test data, relative to a process (or component, structure, tool, method, etc.), the application of which data secures a competitive economic advantage, e.g., by optimization or improved marketability.
- C. Its use by a competitor would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing a similar product.
- D. It is not the property of Westinghouse, but must be treated as proprietary by Westinghouse according to agreements with the owner.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.790 and, on the basis of Westinghouse Electric Corporation's statements, have determined that the submitted information sought to be withheld contains trade secrets or proprietary commercial information.

Therefore, the version(s) of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.790(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of the public disclosure.

Sincerely,

Original signed by:

Stephen T. Hoffman, Project Manager
Project Directorate 11-1
Division of Reactor Projects 1/11
Office of Nuclear Reactor Regulation
