Subject: Docket No. 50-482: Annual Radioactive Effluent Release
Report Correction

Gentlemen:

Enclosed is a corrected page from the Wolf Creek Generating Station (WCGS) Annual Radioactive Effluent Release Report covering the period from January 1, 1993 through December 31, 1993. The report originally submitted an estimate of major nuclide composition (by type of waste) which summarized only Class A data, rather than a summary of all waste classes. The corrected page 19 of 31 is attached.

If you should have any questions regarding this submittal, please contact me at (316) 364-8831, extension 4450, or Mr. William M. Lindsay at extension 8760.

Very truly yours,

Otto L. Maynard
