

September 11, 1995

Mr. Carl Giacomazzo, President  
Shoreham Project  
Long Island Power Authority  
Shoreham Nuclear Power Station  
P. O. Box 628, North Country Road  
Wading River, NY 11792

Dear Mr. Giacomazzo:

SUBJECT: TERMINATION SURVEY DATA

On August 18, 1995, Mr. R. Nimitz of my staff requested you to review the termination survey release record for the chemistry laboratory ventilation system. Specifically, we wish to confirm that the turbine building survey release record (TB 060) did correctly document that the survey of the system had been performed. The request was necessitated by a re-review by the NRC of the surveys (termination survey release record SU072) of the miscellaneous heating, ventilation, and air conditioning system (system X-41), of which the chemistry laboratory ventilation system is part. This review indicated that the survey data for the chemistry laboratory ventilation system were not contained therein.

This letter confirms the aforementioned request. If the survey data are not contained in the referenced record, please identify where the results are located. We further request that the review be performed as expeditiously as possible in order to allow us to confirm that the ventilation system was appropriately surveyed.

Thank you for your attention to this matter. Your staff may contact Mr. Nimitz directly at (610) 337-5267.

Sincerely

Original Signed By:  
Roberts J. Bores
