}
Docket No. 50-285

APPLICATION FOR AMENDMENT
OF
OPERATING LICENSE

Pursuant to Section 50.90 of the regulations of the U. S. Nuclear Regulatory Commission ("the Commission"), Omaha Public Power District, holder of Facility Operating License No. DPR-40, herewith requests that the Technical Specifications set forth in Appendix A to that License be amended to revise the requirements for containment integrity and the personnel air lock to reflect provisions of Standard Technical Specifications.

The proposed changes in Technical Specifications are discussed in Attachment A to this Application. A Discussion, Justification and No Significant Hazards Consideration Analysis, which demonstrates that the proposed changes do not involve a significant hazards consideration, is appended in Attachment B. The proposed changes in specifications would not authorize any change in the types or any increase in the amounts of effluents or a change in the authorized power level of the facility.

WHEREFORE, Applicant respectfully requests that the Definition Section and Sections 2 and 3 of Appendix A to Facility Operating License No. DPR-40 be amended in the form attached hereto as Attachment A.
