In Reply Refer To: Docket: 50-285/84-08

Omaha Public Power District ATTN: W. C. Jones, Division Manager Production Operations 1623 Harney Street Omaha, Nebraska 68102

Gentlemen:

This refers to the inspection conducted by Messrs. W. L. Holley and B. Murray of this office during the period March 26-30, 1984, of activities authorized by NRC Operating License DPR-40 for Fort Calhoun Station and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

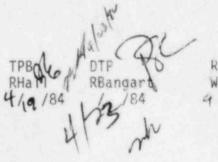

Areas examined during the inspection included radiation protection activities during refueling. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within 10 days of the date of this letter, and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
