

Federal Emergency Management Agency

Washington, D.C. 20472

JUN 19 1984

MEMORANDUM FOR: Edward L. Jordan
Director, Division of Emergency Preparedness
and Engineering Response

FROM: *Richard W. Krimm*
Richard W. Krimm
Assistant Associate Director
Office of Natural and Technological
Hazards Programs

SUBJECT: Michigan Proposed Corrective Action for the Deficiency
Identified During the D.C. Cook Nuclear Power Plant
Offsite Radiological Emergency Preparedness Exercise
Conducted on January 25, 1984

Attached is the proposed corrective action submitted by the State of Michigan for the deficiency noted in the Final Report for the D.C. Cook Nuclear Power Plant Offsite Radiological Emergency Preparedness Exercise conducted on January 25, 1984. The exercise report was sent to you on March 9, 1984.

The Federal Emergency Management Agency (FEMA) Headquarters and Region V staff have reviewed the proposed corrective action submitted by the State and found it to be adequate. Based on the exercise and the proposed corrective action schedule, we cannot identify any impediments to protecting the health and safety of the public in the event of an incident at the D.C. Cook Nuclear Power Plant. Therefore, the approval under FEMA Rule 44 CFR 350 will remain in effect.

If you have any questions, please contact Mr. Robert S. Wilkerson, Chief, Technological Hazards Division.

The exercise objective, "R," to activate and provide the necessary resources for the reception/congregate care facility was not fully demonstrated during the January 25, 1984, D. C. Cook exercise. There was insufficient staff personnel on hand during this exercise to operate both facilities.

Full activation/demonstration of a reception/congregate care facility at the next R.E.P. exercise.

Next R.E.P. exercise - est. January/February 1985. (Date may change due to NRC/utility scheduling.)
