Dear Sir:

The NRC was notified of a potentially reportable deficiency in Reference (A) and (B), Interim Reports were transmitted by Reference (C), (D) and (E) and a Time Extension was requested by Reference (F). At that time, it was estimated that a Final Report would be available by June 15, 1984.

Due to the extensive investigation, testing and evaluation required, it is now expected that this information will be finalized by August 15, 1984, at which time a complete report will be submitted.

There is no new information or change to the Interim Report at this time.

50-528

Very truly yours,
