Dear Mr. Lee:

As you requested, we are sending you photocopies of all our correspondence, working papers, and supporting documents relating to our report Catawba Nuclear Station Evacuation Analysis -- Evacuation Time Estimates. We are sending 100% of our project technical files, including internal notes and supporting calculations.

You also requested all items relating to spontaneous evacuation. That topic was not within the scope of our study and there is nothing relating to it in our files for this project. Should you wish to determine the effect of spontaneous evacuation on the time needed to evacuate the EPZ, we would be glad to assist.

Very truly yours,

Jerry Lutes
