BRANCH

Mrs. Juanita Ellis
President, CASE
1426 South Polk Street
Austin, TX 78711

In the Matter of
Texas Utilities Generating Electric, et al.
(Comanche Peak Steam Electric Station, Units 1 and 2)
Docket Nos. 50-445 and 50-446

Dear Mrs. Ellis:

This confirms that during our Monday, June 18, 1984 telephone call, I provided you with the underlying basis for the Staff's statement on page 51 of the SIT Report regarding the acceptability of design procedures for skewed welds utilized by the three pipe support design groups for CPSES. According to Mr. Tapia (who was responsible for that portion of the SIT Report), the document which provided the basis for the referenced SIT Report statement was an Office Memo from J. Ryan to G. Purdy, identified as CPPA-22,616 (amended), dated August 27, 1982. The Staff committed to providing you with this information during the Wednesday, June 6, 1984 informal telephone conference call (see p. 22 of the June 6, 1984 transcript).

Sincerely,
