SNUPPS

Mr. S. J. Seiken
Manager Quality Assurance
5 Choke Cherry Road
Rockville, Maryland 20850

Dear Mr. Seiken:

Subject: Review of Changes to the SNUPPS QA Program for the Callaway and Wolf Creek Sites.

We have completed our review of proposed Revisions 6, 7, and 8 to the SNUPPS QA program for design and construction (standard plant) and the Callaway and Wolf Creek addendums. These proposed revisions were submitted through your letters of April 5, 1983, and November 3, 1983, and through Kansas Gas and Electric Company's letters of June 10, 1983, and August 2, 1983.

An error in organization titles in the last three paragraphs of page 17B.1-1, Revision 8, was discussed with you on June 13, 1983. You indicated these would be corrected in your next submittal.

Based on our review of the prepared revisions to the QA program for the design and construction of the Callaway and Wolf Creek nuclear power plants, we find the revised QA program continues to meet the criteria of Appendix B to 10 CFR Part 50 and is, therefore, acceptable.

Sincerely,

Original Signed By
E. H. Johnson

E. H. Johnson, Acting Chief
Reactor Project Branch 2
