Houston Lighting & Power Company  
ATTN: G. W. Oprea, Jr.  
Executive Vice President  
P.O. Box 1700  
Houston, Texas 77001

Gentlemen:

We have completed our review of Revisions 5 and 6 of the construction quality assurance program that Houston Lighting and Power Company (HL&P) is implementing for the South Texas Project (STP). Revisions 5 and 6 were submitted to NRC on November 1, 1983, and April 2, 1984, as required by 10 CFR Part 50.55(f).

We find that we still have several concerns and questions on both revisions. Each question and concern was discussed in detail with your Mr. J. Geiger and Mr. M. Wisenburg during a meeting with our Mr. D. Fox held on June 5, 1984, at the Region IV office. A copy of your submittals was annotated on the appropriate pages and given to Mr. Geiger for in-depth review and action by the appropriate HL&P personnel.

Mr. Geiger and Mr. Wisenburg indicated that they understood our concerns and questions, and agreed to respond to them at a followup meeting to be held with Region IV personnel on June 26, 1984, at the Region IV office. Upon mutually satisfactory resolution of our concerns and questions, HL&P would submit a revised revision of the quality assurance program for Region IV final review and acceptance.

Should you have any questions concerning this matter, please contact me.

Sincerely,

Original Signed By  
E. H. Johnson

E. H. Johnson, Chief
