

Docket No. 50-397

JUN 13 1984

Washington Public Power Supply System
P. O. Box 968
Richland, Washington 99352

Attention: Mr. G. C. Sorensen, Manager
Regulatory Programs

Gentlemen:

Subject: NRC Inspection of WNP-2

This refers to the routine inspections, conducted by Mr. D. J. Willett of this office during the period of April 30 - May 4, 1984, of activities authorized by NRC License No. NPF-21, and to the discussion of our inspectors findings with Mr. J. D. Martin and members of your staff at the conclusions of these inspections.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

No items of noncompliance with NRC requirements were identified within the scope of this inspection.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).

Should you have any questions concerning these inspections, do not hesitate to contact us.

Sincerely,

Original signed by

T. W. Bishop, Director
Division of Reactor Safety & Projects

Enclosure: Inspection Report No. 50-397/84-12
