Joseph M. Farley Nuclear Plant
Steam Generator Tube Support Plate Alternate Plugging Criteria

Gentlemen:

On November 20, 1991, a meeting was held with the NRC Staff to discuss staff questions arising from their review of the steam generator tube support plate alternate plugging criteria amendment.

Enclosed are copies of WCAPs containing copies of the overhead slides presented at that meeting. Enclosed are:

1. 1 copy of WCAP-13138, "Steam Generator Tube/Tube Support Plate Elevation Alternate Plugging Criterion Summary" (Proprietary),
2. 1 copy of WCAP-13139, "Steam Generator Tube/Tube Support Plate Elevation Alternate Plugging Criterion Summary" (Non-Proprietary).

Also enclosed are a Westinghouse authorization letter, CAW-92-250, accompanying affidavit, Proprietary Information Notice, and Copyright Notice.

As Item 1 contains information proprietary to Westinghouse Electric Corporation, it is supported by an affidavit signed by Westinghouse, the owner of the information. The affidavit sets forth the basis on which the information may be withheld from public disclosure by the Commission and addresses with specificity the considerations listed in paragraph (b)(4) of Section 2.790 of the Commission's regulations.

Accordingly, it is respectfully requested that the information which is proprietary to Westinghouse be withheld from public disclosure in accordance with 10 CFR Section 2.790 of the Commission's regulations.

ADD 1/1

Correspondence with respect to the copyright or proprietary aspects of the items listed above or the supporting Westinghouse Affidavit should reference CAW-92-250 and should be addressed to R. P. DiPiazza, Manager of Nuclear Safety Licensing, Westinghouse Electric Corporation, P. O. Box 355, Pittsburgh, Pennsylvania 15230-0355.

If there are any questions, please advise.

Respectfully,

J. D. Woodard

Proprietary Information Notice

Transmitted herewith are proprietary and/or non-proprietary versions of documents furnished to the NRC in connection with requests for generic and/or plant-specific review and approval.

In order to conform to the requirements of 10 CFR 2.790 of the Commission's regulations concerning the protection of proprietary information so submitted to the NRC, the information which is proprietary in the proprietary versions is contained within brackets, and where the proprietary information has been deleted in the non-proprietary versions, only the brackets remain (the information that was contained within the brackets in the proprietary versions having been deleted). The justification for claiming the information so designated as proprietary is indicated in both versions by means of lower case letters (a) through (g) contained within parentheses located as a superscript immediately following the brackets enclosing each item of information being identified as proprietary or in the margin opposite such information. These lower case letters refer to the types of information Westinghouse customarily holds in confidence identified in Sections (4)(ii)(a) through (4)(ii)(g) of the affidavit accompanying this transmittal pursuant to 10 CFR 2.790(b)(1).
