Dear Mr. Anderson

Subject: NRC Inspection Report No. 50-293/92-01

This refers to the safety inspection conducted by Messrs. J. Macdonald, A. Cerne, and D. Kern of this office January 1 to February 3, 1992 at the Pilgrim Nuclear Power Station, Plymouth, Massachusetts. Areas relevant to the health and safety of the public examined during this inspection are described in the NRC Inspection Report. The results have been discussed with Mr. E. Kraft and other members of your staff at the conclusion of the inspection period.

Your technical and safety perspectives displayed during reactor water cleanup system pipe replacement activities were noteworthy. Additionally, your staff investigation of a fitness for duty (FFD) event involving a member of the contracted security force was timely and thorough. Management commitment to the purpose of the FFD program was clearly demonstrated.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
