Chief Nuclear Materials
Inspection Section 1

Dear Sir,

This is in reply to your letter dated January 8, 1992 regarding the NRC inspection at our establishment the Nuclear Medicine Center. As to the violations noted on your letter under B, C and E we were not informed on previous inspections that these particular items were needed. We have corrected these violations according to your standards by receiving a finger ring badge, also we record daily actual readings and also carry shipping papers when we use the mobile unit. I hope this will clear up any violations regarding these matters.

Thank You,

R. S. Manoli
