Director, Office of Inspection
and Enforcement
United States Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. DeYoung:

HVAC Equipment Manufactured by the Bahnson Company

We are conducting a thorough search of our records to determine if we have ever used the services of the Bahnson Company of Winston-Salem, North Carolina. We are also contacting all contractors who have been involved with the HVAC system at the Diablo Canyon Power Plant to ascertain if they have utilized the services of the Bahnson Company on work performed at Diablo Canyon.

If our investigation identifies that work was performed by Bahnson Company at the Diablo Canyon Power Plant, we will promptly notify the NRC and take appropriate action to determine whether the procurement specification was met and if the product was suitable for its intended service.

Sincerely,

Frederick W. Mielke, Jr.
