Page Revisions to Effluent and Waste Disposal Semi-Annual Report  
for July 1, 1983 through December 31, 1983

The Semi-Annual Effluent and Waste Report for July 1, 1983 through December 31, 1984 has been revised to incorporate Sr-89 and Sr-90 analysis results that arrived from our contractor too late to be incorporated in the report submitted on March 1, 1984. We also analyzed for Fe-55, but the results were below the lower level of detection.

Please replace pages 6 and 7 of the subject report with the attached revised pages.
