Gentlemen:

Subject: NRC INSPECTION REPORT 50-285/92-02

This refers to the inspection conducted by Mr. A. D. Gaines of this office on January 27-31, 1992. The inspection included a review of activities authorized for your Fort Calhoun Station facility. At the conclusion of the inspection, the findings were discussed with you and other members of your staff identified in the enclosed report.

The inspection involved the review of certain areas of your radiation protection program. Areas examined during the inspection are identified in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations of activities in progress.

Within the scope of the inspection, no violations or deviations were identified.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original signed by

A. Bill Beach, Director
Division of Reactor Projects
