Subject: Transmittal of Additional Items for Acceptance Review of WCAP-18641
Date: Wednesday, April 1, 2020 2:53:38 PM

Matt,

I have placed a table of additional comments resulting from the staff's acceptance review of WCAP-18461, "Common Q Platform and Component Interface Module System Elimination of Technical Specification Surveillance Requirements." They have also been placed in the Agencywide Document Access and Management System (ADAMS) and declared as nonpublic to protect any proprietary information in them.

Staff is prepared to discuss its acceptance review letter (ADAMS Accession No.: ML20021A201) and the other topics in the box.com file.

If you have any questions, please feel free to email me.

Joe Holonich, Sr. Project Manager
Office of Nuclear Reactor Regulation
