Gentlemen:

SUBJECT: Annual 10 CFR 50.59 Submittal Date Change

As previously discussed with Mr. S. D. Bloom of the NRC, the next annual 10 CFR 50.59 report for Fort Calhoun Station Unit No. 1 was to be submitted to the NRC by March 1, 1992. The annual 10 CFR 50.59 Report and the annual Updated Safety Analysis Report (USAR) update derive their information from common sources. To improve the consistency of this information, Omaha Public Power District will henceforth combine the annual 10 CFR 50.59 Report with the annual USAR update. This is consistent with current industry practice.

The next annual USAR update is currently scheduled to be submitted July 22, 1992, and will include the 10 CFR 50.59 Report for 1991.

If you should have any questions, please contact me.

Sincerely

W. G. Gates
