

UNITED STATES ATOMIC ENERGY COMMISSION

NOTICE OF ISSUANCE OF FACILITY LICENSE AMENDMENT

LOCKHEED AIRCRAFT CORPORATION, DOCKET NO. 50-172

AND THE DEPARTMENT OF THE AIR FORCE, DOCKET NO. 50-176

Please take notice that the Atomic Energy Commission has issued, effective as of the date of issuance, Amendment No. 3, set forth below, to Facility License No. R-86, as amended. The license authorizes possession by the Department of the Air Force and operation by Lockheed Aircraft Corporation of the Radiation Effects Reactor (RER) located on a 10,000 acre site in Dawson County, Georgia. The amendment authorizes Lockheed Aircraft Corporation: (1) to replace a present water reflector on one side of the core with a solid aluminum reflector, and (2) to reduce the number of remote monitoring stations from 10 stations within and 7 stations outside of the perimeter fence, to 9 stations within and 3 stations outside of the perimeter fence, as described in the licensee's application for license amendment dated November 20, 1962.

The Commission has found that:

- (1) Operation of the reactor in accordance with the license as amended will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security.
- (2) The application for amendment complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations set forth in Title 10, Chapter 1, CFR;
- (3) Prior public notice of proposed issuance of this amendment is not necessary in the public interest since operation of the reactor in accordance with the license, as amended, will not present significant change in the hazards to the health

and safety of the public from those considered and evaluated in connection with the previously approved operation.

Within fifteen (15) days from the date of publication of this notice in the Federal Register, the applicant may file a request for a hearing, and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the provisions of the Commission's Regulation (10 CFR 2). If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) a related hazards analysis prepared by the Test & Power Reactor Safety Branch of the Division of Licensing and Regulation and (2) the licensee's application for license amendment dated November 20, 1962, both of which are available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C. A copy of item (1) above may be obtained at the Commission's Public Document Room, or upon request, addressed to the Atomic Energy Commission, Washington, D. C., Attention: Director, Division of Licensing and Regulation.

LOCKHEED AIRCRAFT CORPORATION, DOCKET NO. 50-172
AND THE DEPARTMENT OF THE AIR FORCE, DOCKET NO. 50-176
AMENDMENT TO FACILITY LICENSE

License No. R-86
Amendment No. 3

License No. R-86 is hereby amended to authorize the changes described in the application amendment dated November 20, 1962.

Paragraph 1. of License No. R-86 is hereby amended to read as follows:

"1. This license applies to the Radiation Effects Reactor (RER), a heterogeneous pressurized water-type nuclear reactor (Air Force Plant No. 67) (hereinafter referred to as "the reactor") which is possessed by the Department of the Air Force and located on a 10,000 acre site in Dawson County, Georgia, and described in the Lockheed Aircraft Corporation application for license dated February 23, 1962, and amendments thereto dated April 20, 1962, May 25, 1962, July 25, 1962, September 25, 1962, October 24, 1962 and November 20, 1962, and described in the Department of the Air Force application for license dated March 15, 1962 and April 11, 1962, (hereinafter collectively referred to as "the applications"). The reactor was constructed for the Department of the Air Force as a facility exempt from AEC licensing requirements under Section 91b of the Atomic Energy Act of 1954, as amended."

This amendment is effective as of the date of issuance.
