

UNITED STATES ATOMIC ENERGY COMMISSION

LOCKHEED AIRCRAFT CORPORATION, DOCKET NO. 50-172

AND THE GENERAL SERVICES ADMINISTRATION (REPRESENTED

BY THE U.S. ARMY CORPS OF ENGINEERS) DOCKET NO. 50-176

NOTICE OF PROPOSED ISSUANCE OF FACILITY LICENSE AMENDMENT

Please take notice that the Atomic Energy Commission proposes to issue jointly to Lockheed Aircraft Corporation and the General Services Administration (represented by the U. S. Army Corps of Engineers) Amendment No. 4, substantially in the form annexed, to Facility License No. R-66. The license amendment relates to the Radiation Effects Reactor (RER) located on a 10,000 acre site in Dawson County Georgia. The amendment would authorize the General Services Administration (represented by the United States Army Corps of Engineers) as the responsible Federal Agency to possess title to the reactor, and would authorize Lockheed Aircraft Corporation (1) to use and operate the RER at a maximum power level of 3 megawatts (thermal), (2) to relocate the test car position, (3) to partially relax the air traffic restrictions at the site, and (4) to remove the meteorological restrictions on reactor operation, all as described in Lockheed's application amendments.

Prior to the issuance of the license amendment, the Lockheed Aircraft Corporation will be required to provide proof of financial protection which satisfies the requirements of 10 CFR 140 and to execute an indemnity agreement as required by Section 170 of the Atomic Energy Act of 1954, as amended, and 10 CFR 140.

The Commission has found that the application, as amended, complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations set forth in Title 10, Chapter 1, CFR.

Within fifteen (15) days from the date of publication of this notice in the Federal Register, the applicant may file a request for a hearing, and any person whose interest may be affected by the proposed issuance of this license amendment may file a petition for leave to intervene. A request for a hearing and petitions to intervene shall be filed in accordance with the provisions of the Commission's "Rules of Practice" (10 CFR, Part 2). If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, a notice of hearing or an appropriate order will be issued.

For further details with respect to this proposed issuance, see (1) the applications and amendments thereto, (2) the related hazards analysis prepared by the Test and Power Reactor Safety Branch of the Division of Licensing and Regulation, and (3) the Technical Specifications designated as Appendix "A" to the license, all of which are available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington D. C. A copy of item (2) above may be obtained at the Commission's Public Document Room, or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.
