Company
Post Office Box 236
Hancocks Bridge, NJ 08038

SUBJECT: HOPE CREEK GENERATING STATION (TAC NO. M91547)

Dear Mr. Eliason:

The Commission has issued the enclosed Amendment No. 81 to Facility Operating License No. NPF-57 for the Hope Creek Generating Station. This amendment consists of changes to the Technical Specifications (TSs) in response to your application dated January 11, 1995.

The change to Technical Specification (TS) 3/4.3.8, "Turbine Overspeed Protection System," removes these requirements from the TS and relocates the Bases to the Hope Creek Updated Final Safety Analysis Report (UFSAR) and the Surveillance Requirements to the applicable surveillance procedures. The Limiting Conditions for Operation (LCOs) are eliminated.

A copy of our safety evaluation is also enclosed. Notice of Issuance will be included in the Commission's biweekly Federal Register notice.

Sincerely,

original signed by C. Poslusny for
David H. Jaffe, Senior Project Manager
Project Directorate I-2
