

Docket No. 50-285

February 20, 1992

Mr. W. Gary Gates
Division Manager - Nuclear Operations
Omaha Public Power District
444 South 16th Street Mall
Mail Stop 8E/EP4
Omaha, Nebraska 68102-2247

Dear Mr. Gates:

SUBJECT: GOOD JOB LETTER GIVEN TO DIABLO CANYON

At the February 7, 1992, meeting between OPPD and Mr. James Taylor of the NRC, OPPD expressed interest in the good-job letters that the NRC gives out during its Senior Manager Meetings to licensees deserving NRC recognition for safety performance. The enclosed copy of the letter to Diablo Canyon was requested by Mr. William Jones of OPPD.

Sincerely,

ORIGINAL SIGNED BY

David L. Wigginton, Senior Project Manager
Project Directorate IV-1
Division of Reactor Projects - III/IV/V
Office of Nuclear Reactor Regulation

February 3, 1992

Docket No. 50-275
Docket No. 50-323

Mr. Richard A. Clarke
Chairman of the Board and
Chief Executive Officer
Pacific Gas and Electric Company
77 Beale Street
San Francisco, California 94106

Dear Mr. Clarke:

On January 14 and 15, 1992, NRC Senior managers met to evaluate the nuclear safety performance of operating reactors, fuel facilities, and other materials licensees. The NRC conducts this meeting semiannually to determine if the safety performance of the various licensees exhibits sufficient weaknesses to warrant increased NRC attention. In addition, at this meeting, senior managers identify specific plants that have demonstrated a level of safety performance that deserves formal NRC recognition. At the January 1992 Senior Management Meeting, the Diablo Canyon nuclear power plant was identified as having achieved a high level of safety performance and met criteria for recognition of its performance.

In identifying such plants, senior managers perform an evaluation of performance in many areas including operational safety, self-assessment, problem resolution, and plant management organization and oversight.

NRC senior management recognizes that management involvement in all phases of plant operation, the dedicated and knowledgeable staff that supports plant activities, and the commitment to safety throughout the organization are necessary to achieve the level of performance demonstrated by the Diablo Canyon nuclear power plant. We commend you and your staff for achieving a high level of safety performance. Your achievement is the result of dedicated efforts from your staff and is a positive example to the industry.

The greatest challenge that you now face is to maintain this level of performance and not to rest on past achievements. Continued management involvement and support, and dedicated efforts from your staff to identify and promptly correct problems, are necessary for you to continue to meet this difficult challenge.

Sincerely,

James M. Taylor
Executive Director
for Operations
