

JUN 25 1984

Mr. A. J. Nardi
NES License Administration
Westinghouse Electric Corporation
Box 355
Pittsburgh, Pennsylvania 15230

Dear Mr. Nardi:

As part of our review of your application for renewal of your Facility Operating License R-119, we note that your current license includes ten (10) conditions under Section 2.C(3) "Physical Security Plan". Current staff practice is to incorporate such conditions in licensee's Physical Security Plan rather than in the license itself. Therefore, it would be to the NRC's benefit if the conditions b through j could be placed in your Physical Security Plan dated November 24, 1981, which was subsequently approved, as modified by the NRC, in a letter and Amendment No. 7, dated November 2, 1982.

Please submit a request to Region I that the enclosed conditions, now existing as part of your license, be incorporated as part of your currently approved Physical Security Plan as a 10 CFR 50.54(p) change. After approval, we will make the corresponding changes to your license at renewal.

Note that the original and four copies of your request should be sent to the Region and one copy to Headquarters. If you have any questions, please phone Mr. Harold Bernard at (301) 492-9799.

Sincerely,

151

Cecil O. Thomas, Chief
Standardization and Special
Projects Branch
Division of Licensing

"The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P. L. 96-511."
