General Comment

The health of everyone is at risk right now from covid-19, but that doesn't mean we shouldn't remain vigilant for other hazards to our health, such as how to dispose of nuclear waste. Nuclear waste should NOT EVER be allowed in regular landfills or normal hazardous waste sites. Nuclear waste should ONLY be allowed at regulated radioactive waste storage facilities. Do not allow a reduction in nuclear waste safety standards while the attention of most of our populace is on the pandemic!
