

UNITED STATES ATOMIC ENERGY COMMISSION

Superseded

DOCKET NO. 50-172

LOCKHEED AIRCRAFT CORPORATION

NOTICE OF ISSUANCE OF FACILITY LICENSE AMENDMENT

The Atomic Energy Commission has issued Amendment No. 9, as set forth below, to Facility License No. R-86. The license, which authorizes the Lockheed Aircraft Corporation to operate a heterogeneous pressurized water-type nuclear reactor in Dawson County, Georgia, expires on April 4, 1969. The licensee has requested a five-year extension; all other conditions of the license will remain the same. Accordingly, Amendment No. 9 extends the expiration date of the license to April 4, 1974.

Within fifteen (15) days from the date of publication of this notice in the Federal Register, the applicant may file a request for a hearing, and any person whose interest may be affected by the issuance of this amendment may file a petition for leave to intervene. A request for hearing and petitions to intervene shall be filed in accordance with the provisions of the Commission's "Rules of Practice", 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see the licensee's application for license renewal dated February 20, 1969, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C.
