

FEB 20 1992

Docket No. 50-298
License No. DPR-46

Nebraska Public Power District
ATTN: Guy R. Horn, Nuclear Power
Group Manager
P.O. Box 499
Columbus, Nebraska 68602-0499

Gentlemen:

Enclosed is a letter from Dennis Kwiatkowski of the Federal Emergency Management Agency (FEMA) dated November 20, 1991, transmitting to NRC the FEMA Region VII report for the July 24-25, 1991, emergency exercise at Cooper Nuclear Station. The States of Iowa, Missouri, and Nebraska; the counties of Atchison and Nodaway in Missouri; and Nemaha and Richardson in Nebraska participated in the exercise. A copy of the report has been forwarded by FEMA to the States of Iowa, Missouri, and Nebraska.

The FEMA report dated October 24, 1991, identified no deficiencies nor were any inadequacies identified for the State of Iowa. There were, however, 22 areas requiring corrective action identified including 13 for the State of Nebraska and affected counties and 9 for the State of Missouri and affected counties. You are requested to followup with offsite officials on the areas requiring corrective action.

Based on the results of the July 24-25, 1991, exercise, emergency response plans and preparedness for the Cooper Nuclear Station are adequate to provide reasonable assurance that appropriate measures can be taken offsite to protect the health and safety of the public in the event of a radiological emergency at the site.

No response to NRC is required. If you have any further questions, please contact Dr. D. Blair Spitzberg at (817) 860-8191.

Sincerely,

Original signed by
A. Bill Beach, Director
Division of Reactor Projects
