Docket No. 50-382  
License No. NPF-38

Entergy Operations, Inc.  
ATTN: Ross P. Barkhurst, Vice President  
Operations, Waterford  
P.O. Box B  
Killona, Louisiana 70066

Gentlemen:

SUBJECT: NRC INSPECTION REPORT NO. 50-382/92-04 (NOTICE OF VIOLATION)

This refers to the inspection conducted by Mr. H. F. Bundy of this office on February 3-7, 1992. The inspection included a review of activities authorized for your Waterford 3 facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

The area examined during the inspection is identified in the report and involved a review of your surveillance procedures and records. Within this area, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are documented in the enclosed inspection report.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice). We are concerned about the violation because it indicates a potential failure to properly control surveillance activities.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

In accordance with 10 CFR Part 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room.
